## Objective

---

Seeking a **Full Stack Developer** role with an opportunity to use my skills in developing web applications and software solutions. Dedicated to continuous learning and implementing best practices in development, deployment, and security to deliver high-quality software solutions.

## Skills

---

- **Frontend:** HTML, CSS, JavaScript, React.js, Tailwind CSS, ReduxToolkit
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB,
- **Tools & Technologies:** Git, GitHub, Postman, Thunder Client, JWT, WebSockets
- **Other Skills:** Responsive Design, RESTful API Integration

## Experience

---

### Internship

#### **KODU Powered By Dhurina**

*Full-stack developer*

*May 2024 – Oct 2024*

Successfully completed a 6-month internship focused on enhancing full stack development skills. Worked on live projects, gaining hands-on experience in :

- Developed and maintained, scalable web applications using MongoDB, Express.js, React, and Node.js, enhancing user engagement and system performance for diverse client projects.
- Utilized Git and GitHub for efficient project management and version control, streamlining collaboration processes and reducing deployment errors by 15 percentage.
- Passionately stayed current with industry trends and best practices, ensuring the delivery of high-quality solutions that meet evolving user needs.
- Optimizing development workflows and system performance through advanced command-line skills and system management, leading to a 10 percentage reduction in development time
  - Web development (React.js, Node.js, Express.js)
  - Backend integration (MongoDB)
  - Frontend technologies (HTML, CSS, JavaScript)

## Education

---

### **KODU Powered by Dhurina**

*MERN Stack Course, Oct 2024*

### **Guru Jambheshwar University, Hisar**

*Bachelor of Computer Application , 2020 - 2023*

## Projects

---

### **Quiz Application -**

[Quiz App](#) 

Architected and developed a fully functional quiz platform using the MERN stack (MongoDB, Express.js, React, Node.js), driving user engagement with features like user registration, quiz creation, and result tracking.

- **Frontend:** Utilized React to build dynamic and responsive components, enhancing user experience and accessibility across multiple devices.
- **Backend:** Designed and implemented RESTful APIs with Express.js to handle quiz data and user interactions, seamlessly integrating MongoDB for efficient data storage and retrieval.

- **Description:**
  - Implemented and optimized Logo Button Functionalities and enhancing with UI.
  - Developed validation logic on the Add Product page to improve data integrity and prevent user errors.
  - Added pagination and graph on all pages and improving user experience.
  - Create Order History functionalities and improve data integrity and prevent user errors.
  - Collaborated with team members, contributed to codebase maintenance, and managed code merges.
  - Technologies: [ Relevant Technologies/tools used, React, Node.js, MongoDB, Git, etc.]

## **Soft Skills**
